

DIVK FORUM

ODRŽAVANJE TEHNIČKIH SISTEMA: SIGURNOST I POUZDANOST BAGERSKIH JEDINICA – UTICAJ PERSONALA

DIVK forum je održan 31. oktobra 2013. Uvodno izlaganje je imao doc. dr Milorad Pantelić pod naslovom: „Održavanje tehničkih sistema: sigurnost i pouzdanost bagerskih jedinica – uticaj personala“.

Kao privredna grana, rudarstvo u mnogim zemljama predstavlja osnovu razvoja i vrši veliki uticaj na njihovu ukupnu ekonomiju. U ceni uglja, održavanje rudarske mehanizacija na površinskom kopu učestvuje sa 35-40%, pa je uticaj havarija bagerskih jedinica na produktivnost površinskih kopova veliki.

Osnovni problem kod bagerskih jedinica na površinskim koprivima se može formulisati u vidu nedovoljno adekvatne koncepcije održavanja.

Najznačajniji uzroci havarija bagerskih jedinica su:

Otežani uslovi eksploracije 27%

Greška u izradi i montaži 22%

Greška rukovaoca (operatora) 18%

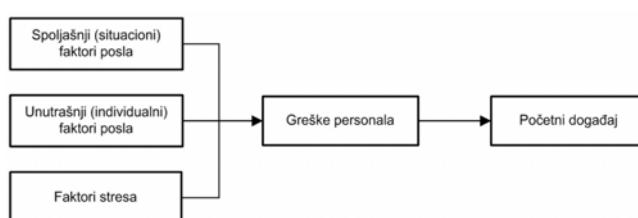

Greška održavaoca 13%

Zamor materijala, habanje opreme i korozioni procesi 8%,

Neadekvatno projektno rešenje 7% i

Ostalo 5%.

Uticaj pouzdanosti personala na eksploracionu sigurnost bagerskih jedinica se šematski može prikazati na sledeći način:

Slika – Lom konstrukcije bagera
Figure – Excavator structural failure.

DIVK FORUM

TECHNICAL SYSTEMS MAINTENANCE: SAFETY AND SECURITY OF EXCAVATOR UNITS – THE STAFF IMPACT

DIVK Forum was held on October 31, 2013. The introduction was made by Doc. Dr Milorad Pantelic with a presentation: "Technical Systems Maintenance: Safety and Security of Excavator Units – The Staff Impact".

As an industry, the mining industry in many countries is the basis of development and makes a huge impact on the overall economy. Mining machinery maintenance at the surface mining accounts for 35-40% of the price of coal and the impact on productivity of excavator unit disasters is huge.

The main problem with excavator units in surface mining can be formulated as a lack of adequate maintenance concepts.

The most important causes for the accidents on excavator units are:

Difficult operating conditions 27%

Errors in the manufacture and assembly 22%

Operator errors 18%

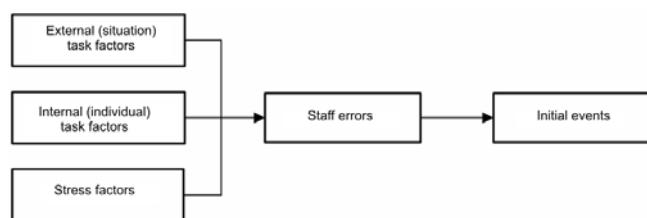

Maintenance errors 13%

Material fatigue, equipment wear and corrosion processes 8%

Non-adequate design solution 7%, and

Other 5%.

Effects the staff reliability impose on the exploitation safety of excavator units is schematically shown in the following:

ANALIZA SIGURNOSTI U FAZI EKSPLOATACIJE BAGERSKIH JEDINICA

Skrining

Na osnovu podataka iz Karte otkaza rotornog bagera SRs 1200x24/4x0(400kW) + VR dolazi se do spiska vrsta grešaka operatora, vrsta grešaka održavaoca i vrsta otkaza celina Mehanizma za dizanje strele rotora (MDS).

1. Spisak vrsta grešaka operatora, n = 1, 2:
 - Operator često i na kratko vrši uključivanje mehanizma za dizanje strele rotora,
 - Operator često i na kratko vrši uključivanje mehanizma za dizanje strele rotora kada se bager nalazi u planumu.
2. Spisak vrsta grešaka održavaoca, m = 1, 2, 3:
 - Održavalac nije pravilno izvršio montažu spojnica na generatoru male grupe,
 - Održavalac nije kvalitetno izvršio centriranje elektromotora,
 - Održavalac nije podesio graničnik za uključivanje radnih kolica.
3. Spisak vrsta otkaza Mehanizma za dizanje strele rotora (MDS), k = 1, 2, 3:
 - Lom vratila zadnjeg (predzadnjeg) reduktora za dizanje strele rotora,
 - Prekid rada elektrohidrauličnog podizača (otkočnika) na radnoj kočnici,
 - Mehaničko oštećenje užadi za dizanje strele rotora.

SVEĆANA SEDNICA SKUPŠTINE DIVK POVODOM 12 GODINA RADA

Svečana sednica Skupštine DIVK povodom 12 godina rada DIVK održana je 18. novembra 2013. godine na Tehnološko-metalurškom fakultetu Univerziteta u Beogradu, u svečanoj sali na III spratu.

Dnevni red:

1. Izveštaj o radu DIVK proteklih 12 godina (2001-2013)
2. Tematsko predavanje: prof. dr Darko Bajić, Univerzitet u Podgorici, Mašinski fakultet.
3. Promocija najnovijih izdanja DIVK
4. Dodela priznanja

DIVK ASSEMBLY CEREMONIAL SESSION FOR A 12 YEAR ANNIVERSARY

The ceremonial session of DIVK Assembly for a 12 year anniversary was held on November 18, 2013, at the Ceremonial Hall, 3rd floor of the Faculty of Technology and Metallurgy, University of Belgrade.

Agenda:

1. Report on DIVK activity in the past 12 years (2001-2013)
2. Thematic lecture: Prof. Dr Darko Bajić, University of Podgorica (Montenegro), Faculty of Mechanical Engineering.
3. Promotion of the latest DIVK publications.
4. Honorary awards presented

Tematsko predavanje prof. dr Darko Bajić i predsedavajući prof. dr Aleksandar Sedmak
Thematic lecture given by Prof. Dr Darko Bajić and president Prof. Dr Aleksandar Sedmak

Učesnici svečane sednice skupštine DIVK povodom 12 godina rada
Participants attending the DIVK Assembly Ceremonial Session for 12-year anniversary.
