

Indexing

Structural Integrity and Life has been indexed or is under evaluation for indexing by a number of databases. The following list shows a few selected databases in which *Structural Integrity and Life* has already been indexed:

[link](#)

Scopus (Elsevier) is the largest abstract and citation database of peer-reviewed literature: scientific journals, books and conference proceedings. Scopus features smart tools to track, analyse and visualize research.

[link](#)

DOAJ is an online directory that indexes and provides access to quality open access, peer-reviewed journals.

[link](#)

SCImago Journal Rank (SJR indicator) is a measure of scientific influence of scholarly journals that accounts for both the number of citations received by a journal and the importance or prestige of the journals where such citations come from.

[link](#)

Citefactor is a service that provides access to quality controlled Open Access Journals. The Directory indexing of journal aims to be comprehensive and cover all open access scientific and scholarly journals that use an appropriate quality control system, and it will not be limited to particular languages or subject areas.

[link](#)

ZORA (Zurich Open Repository and Archive) provides open and worldwide access to the research and scholarly output of the University of Zurich, Switzerland. A focus is on qualified scientific publications.

[link](#)

The **UGC-approved List of Journals** includes Journals covered in i) Web of Science; ii) Scopus; iii) Journals recommended by the Standing Committee on Notification on Journal and Language Committee; and iv) Journal recommended by Universities. The University Grants Commission (UGC) is a statutory Organization of the Government of India by an Act of Parliament in 1956, for the coordination, determination and maintenance of standards of teaching, examination and research in university education.

Google Scholar provides a simple way to broadly search for scholarly literature and, in this way, helps you find relevant work across the world of scientific research.

WEB OF SCIENCE™

[link](#)

Clarivate Analytics – Emerging Sources Citation Index as of February 2018.

Citations from ESCI are included in citation counts for Journal Citation Reports, contributing to Impact Factors of other journals. The journal is discoverable via the *Web of Science* with an identical indexing process to any other indexed journal, with full citation counts, author information and other enrichment. Articles are included in an author's H-Index calculation, and also in any analysis conducted on *Web of Science* data or related products such as *InCites*. Indexing in the ESCI improves the visibility of a journal, provides a mark of quality and is good for authors.
